

# LT-710 SLOPE LASER

**An affordable, automatic true self-leveling  
single slope laser with -10% to +15% grade capability.**

**Easy-to-use flat laser with LCD display for digital slope readout.**

**RECHARGEABLE**

## PRODUCT DESCRIPTION

The LT-710 is a completely automatic, self-leveling, 1,000 ft (300m) radius, flat and single slope laser that provides superior accuracy throughout the grade range.

Rugged, reliable and accurate, the LT-710 is designed for any level or sloped application, and can be packaged with a standard receiver or the CR5 combination hand-held, rod or machine mounted receiver.

## APPLICATIONS

- Concrete forms and footers
- Grading and excavating
- Sloped concrete pours required for runoff
- Parking garages and ramps
- Site preparation and dirt grade
- Septic beds and short-run sewer connections
- Any level or sloped grade application

## FEATURES & BENEFITS

- Fully automatic self-leveling in level and slope mode  
*Easy to set up, whether flat or slope-on-grade*
- 1000 ft (300m) radius range with 1/16" accuracy at 100' (1.6mm @30m) with visible spotting beam  
*Eliminates multiple set-ups and covers even the largest jobsite*
- LCD digital slope input with 0.01% increments and 0.01% grade accuracy  
*Provides superior slope-on-grade accuracy throughout the grade range*
- Simple four button operation for all laser functions  
*Easy to operate and eliminates mistakes or confusion on the jobsite*
