- GRAPHICAL STAKEOUT
- MAP VIEW DATA COLLECTION
- FAST JOB MANAGEMENT AND STORAGE
- SINGLE SOURCE SOLUTION
- ADVANCED ROADING AVAILABLE
- AVAILABLE FOR WINDOWS PC, WINDOWS CE, WINDOWS MOBILE, HANDHELDS OR ON-BOARD
- RUNS ON ALL FC CONTROLLERS

## See everything clearer.

Of the many features in the new TopSURV 7, the large graphical user interface (GUI) is one of the best. With the big icons you can point and touch with your finger, instead of using a stylus.

## Survey with speed and convenience.

Create, edit, upload, and download faster using advanced data management techniques. How many instruments do you use on the jobsite? To simplify your work, Topcon stores configuration files for each instrument. Switching from a Legacy E to a GPT-3100 is a snap—there's no wasted time configuring baud rates and connection settings. Just do it once and store it. Compatibility problems? We know there are several programs that require specific file formats, so we've given TopSURV 7 numerous file formatting export options.

## Experience the Topcon edge.

All of our data collection software, instruments and office software come with superior data exchange methods, making data management easier.

## The way is clear: simplify surveying with TopSURV 7.

### Total Solution

Maximize the use of TopSURV 7 with the FC-2200 field controller. New ruggedized, alphanumeric keyboard and built-in 5MP camera.
